PERSONAL PROJECTS

SIMON GAME | JavaScript(JQUERY) (11/2021 - 12/2021)

- It is a memory based game. Player has to remember a definite pattern of colors and this pattern keeps on increasing in length.
- Player will try to press the buttons of same pattern or else he/she will loose.

WORK EXPERIENCE

Intern

Craqit

06/2021 - 09/2021

Craqit is one of the most legit platform I have come across truly helping and promoting artists from various sectors by creating audio-visual contents.

Achievements/Tasks

- with a mission to democratise the performing and visual arts space, have dedicated ourselves towards creating a digital environment where all art forms are appreciated and given an opportunity to grow.
- They are genuine and I credit them for bringing my long bourne ideas/dreams into reality which boosted my confidence in striving harder into doing what I do best.
